

Dear Sir/Ma'am,

We are pleased to bring to your notice that Aspiring Minds is organizing India Science Fest at **IISER, Pune on Jan 11th and 12th.**

This is a non-profit initiative and the registration to the festival is free. The festival has a great line-up of Speakers from **MIT, Yale, Harvard, UCSD, IITs, NCBS**, at the Festival. The festival is supported by Lakshmi Mittal and Family South Asia Institute at **Harvard University** as our Academic Partners. Our program partners include **Social Alpha, Tata Institute of Genetics and Society, Google, NASSCOM Future Skills and Takshashila Institution.**

(<https://www.indiasciencefest.org/speakers>)

India Science Festival will be **India's largest public science festival** and would get excellent scientists to engage with students, faculty, and professionals. The event will have various public talks, science/tech exhibits, policy roundtables and talks by Ph.D. students and undergraduates, chosen competitively. **We expect 10,000+ participants at the event.**

The festival is endeavoured to be the largest celebration of science in the country and to enable the academic community (students and faculty members) to interact with best scientists, learn about the latest in science and technology, attend workshops and thereby gain exposure and be a part of a world-class science community.

Registration Link: <https://www.indiasciencefest.org/register>

(Registration QR Code is attached in the flyer).
